SUNDAY MORNING, MAY 23.

It will be an affecting sight to see the rival republican leaders on June 1 weeping on each others' necks and wiping their eyes with the mud stained rags which they flaunted in each others' faces during the campaign.

THE Santa Fe New Mexican is mistaken in stating that the people of Las Vegas allowed the telephone scheme to die. The people of this city are enterprising and realizing the benefits which will flow to the business interests of the city by a construction of the line will subscribe one-half the cost of the line, and if the energetic business men of the ancient will contribute as liberally the connection will be made.

STURGIS, of the Stockman, borrowed a white plug hat of Judge Howell, which same the judge had purchased at the Sherwin auction sale of second hand goods, and accompanied his friend Dorsey as far as Raton on his European trip. A newspaper correspondent saw Sturgis in his borrowed finery and which in a mellow condition telegraphed it over the country that Dorsey was given a grand ovation by his cowboys on his departure, many of them accompanying him a short distance on his journey.

THE opinion entertained by the Chicago Tribune, (republican) of Mr. Logan finds expression in the following editorial paragraph from that journal:

The senatorial inclination to sit on Mr. Logan was again developed yesterday. Mr. Logan's position as the friend of the suffering veteran was considered untenable. The trouble with Mr. Logan is that he has played the demagogue so persistently that he has lost influence with both sides of the chamber. Veterans have their rights, but it has never occurred to Mr. Logan that these general rights may be passed upon intelligently and with discretion.

THE largest meeting of representatives and influential democrats ever held in Iowa occurred last week at Des Moines. It took the form of a conference with the state committee regarding the fall campaign. Much enthusiasm prevailed, and a resolution was passed to contest every inch of ground. Iowa democrats very generally favor a tariff for revenue only, and Hon. L. G. Kinne attributed the great gains of the party principally to this cause. One member of the conference said that to him the tariff question is the prominent issue, and he would make the fight on that line with assurance of victory. The state convention will be held in June, and an earnest campaign will be entered upon.

ALABAMA has had no trouble with boycotting yet, but if this crime is attempted in that state there will be no question about its receiving proper punishment. The last legislature passed the following "act to encourage industry in the state of Alabama":

"Any person who shall, by force or threats of violence to person or property, prevent or seek to prevent any person, firm, or corporation engaged in any lawful business, or who shall in like manner disturb, interfere with, or prevent the peaceful exercise of any lawful industry, business, or calling, by any lawful person within the state of Alabama, shall be guilty of a misdemeanor, and on conviction must be fined not less than \$10 nor more than \$500, and may also be imprisoned in the county jail or sentenced to hard labor for the county for not more than twelve months."

No state has yet been heard of which has not upon its statute book provisions which fully cover the crime of boycotting.

A PETITION is now being circulated in Las Vegas praying for the establishment of a daily mail route down the Pecos valley. On no route in New Mexico is an increase of mail service needed more than on this one and Delegate Joseph can mark a red letter day in his career as delegate if he can secure the order for an increase. This portion of the territory is set-

ting up more rapidly than any other, no less than five hundred individuals having made homes during the past year in the section included between Las Vegas and Seven Rivers, a distance of two hundred and fifty miles. At present a portion of the proposed route between Fort Sumner and Roswell, a distance of eighty miles, is without any service whatever, though in that section are located no less than two hundred people, and all are settlers whose homes are made there.

THE reports which are being extensively circulated in the east to the effect that the Mesquero Indians, whose reservation is in Lincoln county, New Mexico, "are preparing to go on the warpath, are dissatisfied," etc., etc., are without any foundation in fact. THE GAZETTE's advice from parties at the reservation are to the effect that the Indians are as quiet and well satisfied as they have been at any time; though it is said that the rations issued them at present are hardly sufficient for their maintenance in that fat and lazy condition which is necessary to insure a condition of absolute peace among them. The amount of supplies to be issued was first estimated when there was an abundance of game on the reservation, but it has been rapidly killed and driven off, and the allowances furnished by the government must be increased to make up the deficiency.
